ok, but can you change the ammo it fires.

i.e. i change the flame gun, which the flame tank uses, to firing chem instead of flames, would that work? Can that be edited serverside.

Also, can you add first person 'hands' to a character. For example locke, by default, doesn't have any hands in first-person mode. I've tried adding a hands file to his profile and it doesnt work.

Any ideas?

Thanks so much for your replies!
