---

I'm surprised to see that this game is still going, I had A LOT of fun with it, played it for about a year after it came out.

I was thinking of coming back, just wanted to know if anyone else has done so and how hard is it to get the game patched etc. to the point you can get on the servers, is everybody all pro now, will I just get wasted non-stop, is there anything else in a nutshell I would need to know...

Thanks for any help.
