zeph wrote on Thu, 11 May 2006 10:42I tried reinstalling and got a new problem, RG won't find Ren.

I get the errormessage in the picture below. I have tried removing the (tm) and selecting the correct folder manually, but nothing works.

The game is a fresh install, tried reinstalling it three times, no files in the directories except the original ones.

I think the RenGuard 1.03 installer always wants you to install to C:. You could try the manual install.
