Crimson wrote on Sun, 14 May 2006 14:15 Crates are one of the stupidest things ever added to Renegade.

In your opinion, But from what my users tell me "OMFG THIS IS COOL". Perhaps the "standard" crates might suck but the ones i have crated would possibly make you change your mind

NR sucks period... The commands are pretty basic as is. Hell even my testbot could be better

renrem msg (BOT): \$2-

How easy is that compared to NR (i dont think BR can do custom commands unless you got a irc bot to relay certain stupid text)

Lets just see how many users use NR to the users on BR & CS
