Goztow wrote on Tue, 16 May 2006 02:49: Back to the interesting part: cheese. Well, people here make cheese from goat milk, so I guess sheep milk ain't so strange. I guess all kinds of milk could be turned into cheese, though I don't know if anyone ever tried it with human milk...

Nah, rather not try it with human milk. We, as humans, are disgusting enough as it is. After all, we eat other animals' babies, and the animals themselves.
