Hello There,
Yes you can use textures or skins. Renguard will display a message "WARNING: Model Textures (Skins) have been detected on your client! You will not be able to join a pure server." which you can just ignore.

P.S. Houston, we have a problem! You can not use the w3d files with Renguard. I believe the dds and tga files will work. These two files are bad.
c_ag_gdi_hotw.w3d
c_gdi_eno.W3D
These three files are maybe not so bad.
c_gdi_eno.tga
c_gdi_eno_head.tga
hud_cnc_ghotwire.dds

I overlooked your attachment, sorry about that. Also be advised, I am no expert with the use of skins. I believe this is correct though.
