light wrote on Tue, 30 May 2006 05:52 Very nice work there. How long did each take roughly?

The project lasted for 22 weeks (and that was on top of many other stupidly demanding assignments) the whole project was a 5 minute fly through animation these are just stills from it. I know for certain the construction robot took about 100 hours to model about 12 to rig and 12 to texture (very rushed).

Myst does look quite interesting I see what people mean now.
