Well i used to be able to run RG on my old computer when i used to play this game,and now i want to start playing renegade again but i cant run RG, i thought i would be fine playing renegade without RG, my i have been!Forcerg'ed or even BANNED from nearly every half decent server for accusations of bighead (musta got better with a year and a halfs break)

anyways heres the screen shot of whats goes wrong when i try to run RG

I'm running Windows XP Pro SP2
