Goztow wrote on Fri, 30 June 2006 01:36He means when Ren crashes it says "login in use".

When your Ren crashes, your login session to Xwis stays as it didn't disconnect (properly). You need to wait until that session times out. It's easiest to simply take another nick and login with that.

One time, I logged in under my other nick to see my default just standing there. Weird.
