ken101 wrote on Tue, 04 July 2006 01:51 I know were you'r coming from. I had nothing but trouble with renguard. I called EA or Westwood what ever you want call it about the trouble i was having. they said i was about 600th person to call about problems with renguard. it's somthing to do with THE FIRST DECADE they left stuff out so they could fit all the C&C games on one disc. The money they put in personnel to reply now could have been put in the original release to avoid these calls...
