24 Player AOW with IRC/Brenbot etc..

and im sure theres more of us

just curious how fast ur internet connection/cpu? does it lagg.

EDIT: quoted wrong person lol.

dan

i have a 12MBps commercial connection which is the highest connection possible without investioning in a $10k server box

Its primarilly for my dads company work server, but I allocate about 50-60% for my needs. I have seen other people get 20-40 ping in my server, and have never reviewed complaints about lag

As for my comp, its a decent 2001 P$, 256 ram, etc, but it doesn't require much to get 60 sfps.
