danpaul88 wrote on Thu, 13 July 2006 01:13that would be because its called strings.tbd, and unless you want a custom one you dont need it in your renegade directory, it should be in always.dat or one of those.

nope, it's called strings.tdb (translation data base).

It doesn't need to be in the data folder, because it's in
the server.dat file.
