srgmjrten wrote on Sun, 23 July 2006 23:09Ah... Exactly, what is GameSpy? I hear you have to Pay-To-Play there? So how would I go about setting up a game there?
www.gamespyarcade.com (I think). It's just a different way of connecting to ren. It's also free.

Oh and if you want to join the row of 100 empty servers, be my guest but quite frankly: we don't need even more servers :-S.
