I don't mind goatse being banned(Even though up to 10 years in jail is ridiculous, and I have no idea how it is going to be enforced.)

And I am 16 too(Well, about to be 17) and I think the U.S. Government sucks! (But I can't say it's the worst)

Our freedoms are either becomming infringed, lost or altered. One after another.

...It just bothers me that so much stuff is done right under our noses.

..And this.. this just pisses me off.

A little while ago a minimum wage bill that would've increased minimum wage from \$5.15 an hour to \$7.25 an hour was denied by the senate, and they claim that it would be too big of an increase and many people would lose their jobs... Well, The Senate has rejected 11 attempts to raise the minimum wage since 1998.

(Alot of people that are poor and are already in debt, can't raise a friggin family on 5 to 6 dollars an hour)

Also:

<http://en.wikipedia.org/wiki/Policeware>

(The government wants to put policeware on our computers, Hasn't happened yet, but it's very possible it can. The car part isn't bad though.)

Sorry, this topic just got me thinking, and I guess I just need to vent.
