Here lie the once alive turtles, helplessly slaughtered by an evil truck.  
...But this is not where the story ends, this is where the story begins...

Little turtle and friends rose from the dead! Because all turtles have the ability to become zombies after death, Duh!(Yeah, what the f' do cats have!?! hm!?) They had awakened with a blood pact of revenge and they felt reborn, more angrier and determined than ever! they followed the tracks of their very own blood from the twisted machine that killed them for days, they would find it.

The little turtles finally managed to get to the evil truck, and were able to climb aboard it thanks to the fact that all trucks come pre-built with turtle climbing ladders in case of apocalyptic little turtle revenge.

One of the little turtles managed to commandeer the vehicle, they relentlessly drove it off a cliff in a kamakazi effort to insure that it was destroyed...

Meanwhile, Barnaby the cat who spins in circles endlessly and pretends he's megaman, is under the cliff enjoying himself. (He has no idea what is coming for him!, stoopid cats!)

The truck, the turtles and all their anger come crashing down on Barnaby the megaman pretending cat, and they all die... The end.

Now that Barnaby is dead, there is nothing left for you to resolve to paradox.....

YOUR BELIEF IN CAT SUPERIORITY IS FAULTY AT BEST.

Turtles Rule!
