Send Whitedragon a PM and see if he'll give you a hint. Either he or vloktboky made the visceroid with the full animation as a random character from the crates in Black-Cell's Dragonade (parent of SSAOW). Here's a video.

Oh, and before anyone asks, I don't have clearscope. There are no hand models shown when I switched to 1st person because visceroids don't have any (they're blobs).
