For the record, as you can see that I don't filter swearing (only racism) here, I carry that same rule in my server (n00bstories). Swearing is allowed, racist insults are not. There are a few other servers like that. My advice to you is to find the servers that allow it and play on them.

I know that children WILL hear all the colorful swear words well before they're old enough to use them. It's good parenting that wins in the end, not trying to shield your children from the horrors of words.
