So, what can you do? You do everything in your power to get banned

I hate the motherfuckers who don't have enough self-control to NOT do a simple action like click onto a server that has strict language rules. All they accomplish is making the moderators even more convinced that they banned a blithering moron.

When I join a game, I don't see it as a place to exercise my right to free speech. I go around killing the other team and blowing up buildings. I use the chat only when I need to, like when a fully-loaded APC comes barrelling over the bridge on City\_Flying or a stank tries to hide behind a building. Chatting is only 10-15% of the game, but when people are denied 10 words out of over a million in the English language they treat it more seriously than it deserves. Even if I didn't agree with the rules (ex. banning for "hell" or "damn" or something mild), getting myself banned ultimately equals 1 less server to play on.

In short, it's leave or shut up.
