Pirate definition, which seems relevant here and should end this nonsense:

Quote:The Pirate is an oft misunderstood individual who can be seen absolutely pwning everyone around him/her. Well versed in the arts of cheekiness, deceit, extortion(sp), theft, blackmail, smarmery, and crazy acrobatic sword and or knife fighting. The pirate always lands on his feet, and always wins, even when you think not. naturally hates the ninja, as ninjas are overated far too serious for their own good.

the most 31337 p1r4735 sometimes join the ranks of the mysterious Shadow Pirates.

ninja:ha! i have found you! now i shall avenge my family's honor!

pirate:pssh. piss off fuckface. yer mum liked it.

ninja: how dare you! devil! now you DIE!!

pirate: well, you are a sensitive boy aren't you? -proceeds to taunt ninja untill ninja rushes forward in a rage, trips ninja and takes his shoes and his wallet-

ninja: i will find you.....

pirate: bring yer sister. -walks away whistling-
