Vikings are massive burly bearded men, usually armed wiht swords or axes, that like to drink, fight, and rape christian whores. Weak, modern men are a disgrace of utmost disgust, compared to the mighty vikings.

"Hail Thor!" roared the berzerker Viking as he raised his axe and swung down, chopping a christian's head clean in half, splattering brains all over his blade, arm and face.

UrbanDictionaryThe only people who, if you saw them on a twilight hill on the horizon, you would shit your pants and run in sheer terror! Vikings raid, raze, and knit in their spare time. No one has been able to oppose them for long; there are vikings among us-- do not cross us. They bring us cool words like: "beserk" which means "bear shirt", "hauberk" which means "steel shirt".

The Vikings just raided England and conquered Europe. They have bagpipes and know how to use them. Hail to the Vikings!

Vikings > Pirates.

Sorry, but you fail... miserably. Vikings are an overrated bunch of outdated warriors hellbent on stupid things like domination rather than what's really important... stealing Spanish gold and using wenches, and abiding by no government, not even your own.
