---

Since everyone thinks my models are "Mobile garbage bags" (it's a funny line so long as someone doesn't say it to you, lol), I would like to get a modeler for my mod.

Requirements:

Somewhat skilled (don't have to be a pro)

ICQ for contact (unless you don't mind being PMed here at the boards or e-mailed)

Some creativity (my MS Paint skills are bleh so no real way to give unit designs, so you get a lot of freedom here)

-----

You won't need to do bonning.

Any takers?
