He WAS using RG. Myself and a few others in game checked a couple times.

And you can see in the picks that he doesn't have a sniper rifle. First, look at him holding the SHOTGUN, next look at his stance. Both equate to him killing at extreme range with the shotgun, not a sniper rifle of any sort.

And there is no way to tell who connected to RG and when?

I'm working on getting ahold of the server admins, but they seem to be offline most of the time :/
