My friend do you see the pyramid? Thats what a government is, the top controls the bottom, the inbetwen sections CAN speak out about the wrong and injuctices, but they are controled by money, so they do thier jobs scilently, hence the all seeing eye, if they see juctice they can easyly crush it, all the way down of the pyramid you have your wal-mart and you and me. My god what has this world come to, oww wait I know but if I post it you people will think that I am crazy. Through out all of humanity TOTAL control was and still is a goal. Just look at some of your everyday logos, look for the eye and the triangle.
