Unless CW.cc serves every decent clan because a clan isn't decent if it doesn't play at CW.cc (in your mind). Then you are proving your own point, which obviously for any intelligent being seems flawed.

I know for a fact that there isnt a single clan on renegade thats half decent that does not participate in clanwars.cc

Name one that could compete with the clans on clanwars.cc. Then have them play us to back it up.
