why shouldnt someone direct connect to your server?! are they really meant xwis/wol-only?!
wouldnt make sense in my opinion... since most dont have a valid serial which is needed for
playing on xwis.

thats the reason i made "wolhook".. to get the server ip/port and direct connect to it.

im sorry if someone abuses it.

Hi, I only made final renegade so people could have an easier time with the single player mission,
it's not my fault everyone uses it to ruin this game in multiplayer.

gasp
