Hi all,

i have my brenbot installed on my LFDS,

but when i am ingame, i type !help or other command and the bot don't respond...

but when i destroy a building it say "thanks you to have destroy this building".

i think it's a wrong configuration on my brenbot.cfg or other.

can anyone send me the config file where i must write IRC adress and other for connecting the bot to IRC ?

thanks you by advance
