the17doctor wrote on Fri, 22 September 2006 07:56i dont have that script

you can create a DavesArrow

Attach "RMV\_Triger\_Killed" (ID = DavesArrow ID)to your object

Attach "JFW\_Console\_Input\_On\_Custom" to the DavesArrow

or learn to make your own script. I find that for me most of the time it's a lot faster/essayer to make my own script then sped time looking for one that does what I need.

PS i also needed the display message on killed so I made my own that can do PM or HostMsg depending on the parameter. About a week later I found "JFW\_Console\_Input\_On\_Custom" that would of worked for what I needed at the time.
