StealthEye wrote on Sat, 23 September 2006 11:36:2.10 minor version number increased.

2.9.9 would be the 9th bug fix release of 2.9 same for 2.9.3, and the changes are not (only) bug fixes...

Yes but 2.10 may be confused with 2.1 .

2.9.3 is better since it ALSO fixes some bugs.
