I have to agree with Psychoarmy on this one, why should it bother you ack if he makes crap models?

If there so crap why do you even need to comment on this, is it because you feel the need to slate everyone to stop them becoming as good as you at mapping/modelling. You we be far far more respected if you learned to help people and stop insulting them. If you want to get a job in a company modelling and mapping which i am pretty sure if your target in life.. no one is going to take you on cause you act like such a jerk you now have a reputation for ripping into anyones creativity and that is going to stay with you for a long time unless you change your name and break every tie with this community.

I am not saying this as a friend or as a enemy i am stateing this as a fellow member of a community which you are destroying with your negative influence to every shread of creativity. I am sure this post wont change you, i am sure you will go through life being so narrow minded that you continue to put other people down for being creative. I no longer want to witness the endless shit that goes on in this forum i would recomend everyone who wants a decent community where people wont flame you but will try to help you out if you are having problems to go to Planetside i see 100th of the flaming over there thaN i do here and that community is 10 times the size of this one.

Soon enough when ACK has scared everyone away from the renegade community besides the people that dont visit the forums and therefore dont play his maps he wont have anyone to flame besides crimson, Blazer and maybe Dante who i think are hero's for sustaining this community for this ammount of time. Over the past few months i have seen many friends leave this community i am afraid i am very close to the desision too, and no ack i dont give a shit if you think i have done nothing for the community and i wont be missed because if this continues there will be no one left to play your maps THEN YOU WILL GIVE A SHIT.

- Snipefrag

PS: ACK you may not even realise it but you are destroying the community that you love for you own means..... Fame..... and being hated.

And all the people i have promised to make maps for dont worry i will be true to my word after i have finished my A level Exams (a few weeks).
