Doitle wrote on Tue, 26 September 2006 21:15 These are XP Pro SP2 keys that I'm using the same one I have. Also I can't download another version of windows anyhow, I dont have a working computer to torrent with and even if I did torrent files are blocked by Bradley's network so I can't actually download the .torrent file to start downloading. This really blows... to the max

i have the iso, is there a way i could get it to you?
