icedog90 wrote on Thu, 28 September 2006 02:45I think that World of Warcraft is the saddest MMORPG ever. Seriously, there is NOTHING special about it. This is what all MMORPGs are doing now... THE SAME DAMN THING. No one seems to be able to come up with something unique anymore... and WoW is the least of uniqueness.

+ i don't see how walking around for about an hour to get a sword or something is even remotely entertaining.
