Just want to know people's opinions on this. This guy says he's very good at grammar. Now I just want to know how many grammatical errors can you find in his paragraph (or I think its a paragraph) alone.

crazzyasssand if u take wat i wrote to any english prof in THIS country none of them will find any errors u both need to pick up a book and read it and read it right cuz u read once and came up wit the idea that the word English was a decribing word which sorry makes u look like a moron in it self that u had the book in ur hand and fuckin read it totaly wrong
