And by the way, this IS moving on. It is business as usual for me. I "moved on" from being focused on the stupid shit a while ago. I'm just working on cleaning up the messy aftermath of the most retarded flame war/spam fest ever seen. However, I am also working with Silent Kane to get ladder support for XWIS, arranged a partnership with BlackIntel for BHS, and working on two separate revitalization projects for n00bstories.

I am just giving the community a place to kindly ask Aircraftkiller to leave the community in body as it's obvious he left it in spirit months ago. Remember that those logs he posted don't make him out to look like a fresh rose garden.
