The screenshot displays the game's shop interface. At the top right, performance metrics are shown: FPS = 60, SFPS = 74, PING = 116, and KBPS. The shop is organized into two main categories: **Characters** and **Vehicles**. The **Characters** section includes:

- 1 GDI Soldier (0 credits)
- 2 Shotgun Trooper (0 credits)
- 3 Grenadier (0 credits)
- 4 Engineer (0 credits)
- 5 Refill (0 credits)
- 6 Characters (6 credits)

The **Vehicles** section includes:

- 7 Vehicles (7 credits)
- 8 Ion Cannon Beacon (1000 credits)

At the bottom center, the player's current credit balance is displayed as **Credits: 162**. A chat window is open, showing the following messages:

Apophis37: that name is mud on my server
candclvr: what bajadera?
Apophis37: yes
candclvr: whys that?
Apophis37: hes an asshole

At the bottom of the interface, there are three buttons: **Exit**, **Team:** (with an empty text input field), and **Buy**. A **Send** button is also present next to the Team input field.
