---

I am Attempting to change what a Model looks like to the Lazer Fence.

" tiles\artist tests\dsapo\dsp\_torturewal.w3d "

Since i cnat use the DSPO things server side, and i am attempting to change the Objects > Simple objects to the lazer fence. I had ot change to look like the Lazer fence but, when i attempt to move the Fence to where i want it, Level Edits shutdowns with an error.

Help anyone?
