sniperg wrote on Mon, 09 October 2006 09:24 Where do I find out how to become better in renegade? I don't think that I am that bad, but it seems that I can't compete correctly. When I shoot for the head, I still don't kill everyone. I shoot many several times and they shoot once...It seems that most get a one shot one kill, except for me. This happens to anyone I come against, a normal soldier and up. I understand the weakness/strengths of each character. I just get positioned and then I am dead. I don't want to be a nOOB any longer. Where do I find out how to play better?

Thanks
