n00b vs n00b: the rave kills the med and the mobius kills the light
pro vs pro: the med kills the rave and the light kills the mobius

Any idiot can hit a med tank with a raveshaw - skill plays very little factor where the raveshaw is concerned. A true pro, however, can consistently bodyshot and headshot infantry with a med tank, and that'll get the job done a hell of a lot faster.

Ouch, I just got pwned there.

bows Good job lol

Your right, i guess it doesnt take much skill to hit a 10 foot metel block
