seen what happend last night on the 56 man server.....

a freind of mine, and ren sniper went godlike on us... the haze1's were there to whitnes it....

110 - 28 shadowlam in the GDI defeat....

the aimbot accusations were flying... as were the cheater accusations....

he dont cheat... hes just good....

and.... the screenies.....

he is human, we met up on another server a while after that..... for a while it was 1 v 1

5 - 0 then he got me....

a few n00bs join / leave / buy tanks / get kicked / fragged....

the end of the round...

gg's shadowlam

and that round on the 56 man server is one for the record books
