Wait..... this is what was said first by him

Quote:All I know is that you're a whore for attention and release minor things, demanding that people credit you for using them...

With this he implies there is something wrong with uploading a model and asking credit for it (note: i 'ask' i don't 'demand' demand is a more aggressive word i choose not to use, he asks for credit too and i remember one of his readmes that 'demanded' that he was mentioned near the top of the readme and not near the bottom, that is the difference between asking and demanding, so it is only you who is demanding things.)
