Kry edited the cloudyserv.cs, I just run it, don't believe me, ask Dave4989. I can provide proof against KrY that he did the ripping. Only thing I edited was Aow.cs (The IRC Outputs of kill messages and etc.) which afaik, is legit. I just run the bot, and plus, it was temporary, I was waiting for [NR] Pre-Beta 4 to come out (now out and now im running).

Yea, I would like to quote on this. I am KrY. And first of all I did rip some bots, but I did NOT rip this bot that Matix has done crap to. And 1 more thing Tp, Im not ur bitch to sum it up.

Now, tell him to fuck off and do the right thing by abandoning him. It's the only way to keep any dignity that you have.
