B.N.CWell, I sometimes use teamwork, but in most cases with ppl from my country. U see. If you want to work in team you must communicate with them and this is much easier to talk in Polish for me.

From the other side - working alone sometimes gives more points. :twisted:Play with zbig7599(hes from poland and knows polish.....hes been in USA for about 8 years.. but maybe you might know him or his family thats still over there!)...ps hes good too.
