Crimson wrote on Mon, 23 October 2006 14:50I always laugh when people can so readily dismiss these "conspiracy theories" as craziness. When you open your mind to these possibilities you can find what could be evidence of it all over. I'm not all that sure which of it is and isn't true but I'm not ready to declare it all bullshit, as much as I'd ilke it to NOT be true.

Just like the Pentagon being hit by a missile, right? That has a lot of "evidence". Blazer could just be a part of the conspiracy, too.
