About the tin foil hats, yes they do protect you to a certain degree, but some rougue elements DO have tecknology that effects consiousness. But the hats do offers some protection.

Tinfoil hats do NOT protect you.

<http://people.csail.mit.edu/rahimi/helmet/>

Quote:The helmets amplify frequency bands that coincide with those allocated to the US government between 1.2 Ghz and 1.4 Ghz...It requires no stretch of the imagination to conclude that the current helmet craze is likely to have been propagated by the Government, possibly with the involvement of the FCC.

ZOMG c0n5p1r4cy!!11!
