Yes, Forsaken is right! It's the Skyhawk. For those of you who don't know or remember the GI Joe stuff... it's a VTOL vehicle for 1 person.

Yep, this will be a full fledged mod. New characters, vehicles, buildings, levels, and *possibly* single player stuff (with a whole new GI Joe story!)

And all you people thought Renegade was going to die. Ok so maybe it will but it will definately be used again in the future!
