the17doctor wrote on Thu, 02 November 2006 17:09worse case scenario is, that events have already been put into motion, that make ice age inevitable.

so instead of trying to prevent it, why dont we prepare for it; to hopefully lower death counts.

I think if we put our minds and technology to it, maybe we could stop the ice age, I have no douths that in a few 1000 years, we have would have tamed our world.
