It works great, the only problem is my little 30 second trailer(actually I made 5) are 200MB-400MB, I am doing some major compressing, but you will need a program that can uncompress .rar type files and extract it onto you computer to view 30 seconds. I will give you a link to the free zip manager I am using, so you will also be able to extract rar files:  
<http://www.7-zip.org/>
