My old roommate and I discovered them on accident (YouTube) last year. He's a guitar player and he was rather speechless for a short time.

He wasted no time in getting 2 or 3 of their albums. I got Rampage for my birthday and that just made it that much better.

You never hear this type of hair thrash metal anymore. Which is a shame because it's the one 80s throwback that doesn't suck. This is like old Metallica and Megadeth and all those other bands who knew how to rock someone's face off.
