Congratulations! 80% of that last post was actual words.

Believe it or not, "u" is not a word. It is, in fact, a letter. Letters make up words. The only letters that are words themselves are "a" and "I."

But let's analyze what you said a little more closely.

"fuck u nerd as bitch"

Translated directly into Non-Retard, this makes no sense.

"Fuck you nerd as bitch"

Fuck him nerd as a bitch? That's just silly. You must be speaking Advanced Retarded. What you are looking for is "ass" instead of "as." These are separate words.

Adding punctuation, allow me to restate what you attempted to type before your brain got in the way.

"Fuck you, nerd-ass bitch."
