haha

```
#include <iostream.h>
```

```
int increment(int n);
```

```
int increment(int n)
```

```
{  
  if (n != n++)  
    n += 1;  
  return n;  
}
```

```
int main()
```

```
{  
  int postcount, incrementedpostcount;
```

```
  incrementedpostcount = increment(postcount);
```

```
  cout << incrementedpostcount;
```

```
  return 0;  
}
```

Your code would fail to compile because you used cout, but did not declare that you were 'using namespace std;' ^^
