LOL

Why would anybody/company waste there time making a sequal to renegade ??

Renegade fails because the game players Or should that be the players who try to destroy the game.

iF YOU THINK ABOUT IT ea HAS THE RIGHT IDEA (unfortunatly) just keep pumping out shit games ----You were given this game (Renegade) and all you done is make mods that are designed to give the mod maker a unfair advantage.

LMAO it was/is so bad Black hand studios had to try to make a new anti-cheat program to stop the cheats <-----lol

Think about it ---you got some pretty clued up people working behind the scenes of this site and a few other renegade sites,all working together to stop cheats and the likes.

Time i feel would be better spent expanding the game ---But no you have decided its time better spent stoping the cheats.

CUT SCENE:::

Server Black intel +modifications
map field

LOL must of been a 5 admins/mods in the game

In comes Dead6

buys a 500black hand sniper walks in the tunnel and kills 4 people 1,2,3,4 reloads and kills another 2 people =6people all head shots 1,2,3,4,5,6 <---that fast

Hes using renguard

when questioned ---hes L33T and crimson lets him (His words not mine)

Now evildragon is on gdi and hes a okay player --well rounded got all weapon skills/can rush/can

defend <----This guy couldnt go in the tunnel,just like the other 3 mods/admin on gdi --infact anybody on gdi couldnt go in the tunnel

dead6 got 35-1 in less than 10minutes

IMO therein is the problem ---if you cheat,and he fookin cheats--if you cheat and nobody stops you or even says anything to you about it ---then how you gonna move forward as a community ??

Answer:: You aint

So what happens ?? I'll tell you what happens

You get shit games to play --and they keep pumping out shit games for you to play.

So please when u firing the fucks into EA --think again you may well be firing the fucks into the wrong people.
